

# Board of Appeals

## Town of Lamoine

This is a letter of complaint concerning the construction of an apparently illegal house on Marlboro Beach Road. In the place of a simple and attractive one hundred year old cottage appeared a story high foundation surrounded by an enormous mound of fill.

I have been in the construction business for over fifty years. It was plain to me that if a two story structure were to be built upon it, it would be over legal height. That is exactly what

The view along this stretch of road is as marvelous as any in Maine. People from all over come to walk and drive this section every day. I know this as I live only two or three hundred yards back up the road.

Any builder would know from the plans that this would be over height. So would a capable code enforcement officer. In my view the owners are culpable also.

Few people would not think ~~construction~~ this structure out of character with the neighborhood,

I hope the board will be able to right this
